Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1.	**UI Policy configuration list**	The ServiceNow UI Policies list displays the configured Incident UI Policies and their conditions, load settings and order.	
2.	**State field Client Script**	The Client Script is configured for the Incident table and uses an onCellEdit function to prevent an unsupported State change during list editing.	
3.	**High Impact UI Policy condition**	The High Impact Control UI Policy is configured for the Incident table with the condition Impact is 1 - High.	
4.	**UI Policy mandatory action**	The High Impact Control UI Policy action makes the Assignment group field mandatory for the Incident form.	

5.	**UI Policy field behaviour – Urgency**	The High Impact Control UI Policy action for Urgency sets the field to read-only while Mandatory and Visible remain unchanged.
